Love 'Em or Leave 'Em Cupid's Chase 5k

Register now for the 18th annual Cupid's Chase 5k and Fun Run on Saturday, February 2. The chip-timed 5k run/walk begins at 8:30 a.m. in downtown Georgetown at Seventh and Main streets and ends at the Bark Park on Holly Street. (A shuttle will take you back to the starting line.) New this year, a 0.25-mile Kids Fun Run for children age 8 or younger starts at 8 a.m. The Kids Fun Run is a loop around the Courthouse.

For the 5k, registration received on or before January 11 is \$17 for those 13 or older and \$15 for seniors (55+) and children 12 and under. January 12 through 30, the registration cost is \$22 for all age groups. Registration at packet pickup and race day is \$25 per person for all age groups.

For the Kids Fun Run, registration on or before January 30 is \$10 per person. On packet pickup and race day, the cost is \$15 per person.

Participants in the 5k and the Kids Fun Run receive a Cupid's Chase Love 'Em or Leave 'Em T-shirt, while supplies last. Dogs on a leash are always welcome on the Cupid's Chase course.

Cupid's Chase is sponsored by Georgetown Parks and Recreation. For details about the event, including a race map, or to register online, go to cupid.georgetown.org. For details, contact Erin Ruyle at Erin.Ruyle@georgetown.org or (512) 930-8459.

The new and improved version of Fire Station 2 on Williams Drive at Central Drive is scheduled to open in February. The 8,300 square-foot facility was constructed next to the old 1,600 square foot-station, which will be torn down.

The old Fire Station 2, with 900 square feet of living quarters, was built in 1975 to be staffed by one firefighter who lived at the station with his family. It had one bathroom, a shared open dorm area, two truck bays, and a history of maintenance problems. A 2011 study determined it would be more cost effective to tear down the old station and build new instead of expanding.

New chief from Arizona

John Sullivan, an assistant fire chief from a fire department in southern Arizona, is to take the oath in January as Georgetown's new fire chief.

Fire Chief John Sullivan

Sullivan has nearly 20 years of experience with the Golder Ranch Fire District north of Tucson, Arizona. The district has eight fire stations, 154 employees, an annual budget of \$18 million, and serves a 210-square-mile area including the city of Oro Valley, Sun City Oro Valley, and the SaddleBrooke retirement community.

After a nationwide search including 90 applicants, City Manager Paul Brandenburg selected Sullivan as the top candidate. "We were looking for someone who is aggressive, innovative, a leader, a good communicator, with budget

experience, and someone who had been there already in dealing with a larger organization."

Sullivan is a certified paramedic and holds several other certifications for incident command, fire inspections, and public information. His experience also includes budgeting, ISO rating audits, fire investigations, grant administration, IT services, media relations, and community outreach.

Sullivan has a bachelor's degree in business administration from University of Phoenix and a master's degree in fire administration from Arizona State University. He graduated with honors for both degrees.

As Georgetown's fire chief, Sullivan will lead a department with five fire stations, 88 employees, and a budget of \$9.4 million. The Georgetown Fire Department serves an emergency service district encompassing 138 square miles.

Sullivan was hired following the retirement of Robert Fite in November. Fite served as fire chief for four years and recently accepted a position as fire chief in Grand Prairie. Assistant Fire Chief Clay Shell served as interim chief.

The new station was built on property the City acquired next to the old station, which allows fire trucks to exit directly onto Williams Drive, improving visibility for cross traffic. Fire Station 2 houses an engine company as well as a haz-mat unit. It provides coverage for much of the central part of the city and downtown.

The new station includes individual dorm rooms for five firefighters and space for one more in the future, plus a private dorm and an office for both a battalion chief and a lieutenant. The station includes a larger kitchen, day-room, and dining room, as well as a fitness room. Fire Station 2 was designed by KA Hickman Architecture and built by Chasco Constructors.
